

NAZAR KHLIVNYI

FULLSTACK DEVELOPER

Poland • nazarhlivnij@gmail.com • +48 731-180-523 • [LinkedIn](#) • [GitHub](#) • [Personal Web Page](#)

SUMMARY

Full-Stack Developer with ~1 year of experience building scalable high-impact web applications improving user engagement and productivity developed real-time collaboration tools increasing team efficiency implemented personalized workout tracking boosting retention optimized application performance and delivered complex projects in Agile teams strong problem-solving skills fast learner effective communicator

TECHNICAL SKILLS

Frontend: React, Next.js, Redux Toolkit, Angular, TypeScript/JavaScript, Tailwind CSS

Backend: Java Spring Boot, Node.js

Databases: MySQL, PostgreSQL, MongoDB

Tools & Collaboration: Git/GitHub, Postman, Figma (UI prototyping)

PROFESSIONAL EXPERIENCE

Full-Stack Developer | NoteFlow (Short-term project contract) Mar - July 2025
Enterprise ERP platform for business process management

- Developed secure authentication system with JWT and RBAC, enhancing platform security
- Integrated analytics microservice and caching layer, improving data access speed
- Created real-time progress tracking, boosting user engagement
- Implemented Redux state management to better handle large datasets and app state
- Worked on Document Management System (DMS) features to streamline content handling

Tech Stack: React (Next.js), Redux Toolkit, Vite, Axios, Java, TypeScript, MySQL

Full-stack Developer | Sprinter IT Sp. z o.o. (University Internship) Aug - Sept 2024

- Created an admin module for bulk user operations, streamlining workflows and reducing manual effort
- Integrated logging and audit systems to improve platform reliability and operational transparency

Tech Stack: React.js, Axios, Java, MySQL

Frontend Developer | FitTy (Short-term project contract) Feb - Jun 2024
Workout management system

- Developed drag-and-drop workout planner, improving user experience and training plan creation
- Created real-time tracking and progress visualization, helping users monitor workouts
- Delivered responsive and accessible UI with personalized feedback
- Implemented tab-based navigation system for smoother workflow
- Optimized component performance, reducing load times and improving overall app responsiveness

Tech Stack: React.js, Axios, TypeScript, Tailwind CSS

PERSONAL PROJECTS

- **E-commerce Platform** — store with catalog, cart, auth, payments, React, Node.js, MySQL • [GitHub](#)
- **Event Management App** — real-time updates, drag & drop, React, Tailwind CSS, TypeScript • [GitHub](#)
- **Typing Speed Tester** — real-time typing analytics, React, Tailwind CSS • [GitHub](#)

EDUCATION & CERTIFICATIONS

- BSc in Computer Science — Opole University 2022 - 2026
- Full-Stack Engineer – Codecademy 2024
- Java Full Stack Spring Boot and Angular – Udemy 2023

LANGUAGES

- English - B2
- Polish - C1
- Ukraine - Native
